INTRODUCING

Kimtech™ Polaris™ Nitrile Exam Gloves

COMFORT + PROTECTION

Kimtech™ is your partner in driving progress. As part of Kimberly Clark's 150-year-old legacy of innovation and partnership with the scientific community, we're proud to present our next step into the future – Kimtech™ Polaris™ Nitrile Exam Gloves.

The proprietary high-quality nitrile formulation delivers the highest level of protection in the Kimtech™ exam glove portfolio. With protection, durability and comfort you can count on, these gloves are built for science, made for you.

Kimtech™ Polaris™ Nitrile Exam Gloves meet and exceed the industry standards for exam gloves.

Designed for use in laboratories; also suitable for pharmaceutical manufacturing, med device manufacturing, biotechnology.

Tested against 24 chemotherapy drugs, which is almost triple the number required by the ASTM D6978 standard for chemotherapy use.

More than double the strength of the industry standard, the Kimtech™ Polaris™ Nitrile Exam Glove has an average tensile strength of 31 Mpa (after aging).

Tested for use with Fentanyl and Simulated Gastric Acid per ASTM D6978-05

Meets FDA food contact requirements set forth in 21 CFR 177.2600

Does not contain silicone according to results obtained using test method SAE AMS 3819C.

Apex Make your laboratory exceptional.

The Apex™ Program is a complimentary training program that ensures a seamless transition to the Kimtech™ brand of products in environments, such as research labs, semi-conductor production, or advanced manufacturing, where personal safety and contamination control are essential. By effectively engaging employees, Apex ensures the protection of your process while enhancing efficiency and performance.
